Sir:

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(c)

This Information Disclosure Statement is being filed after the events recited in 37 CFR 1.97(b) but, to the undersigned's knowledge, before the mailing date of any of a final action under § 1.113, a notice of allowance under § 1.311, or an action that otherwise closes prosecution in the application. Under the provisions of 37 C.F.R. § 1.97(c), this Information Disclosure Statement is accompanied by a fee of \$180.00 as specified in Section 1.17(p).

In a Reply to the Office Action mailed 2/10/2006, the undersigned indicated that this IDS would be filed and would include citations to applications and issued patents owned by assignee of the subject application that contain subject matter

related to that in the subject application. Also cited as non-patent literature are Office Actions on the merits and their Responses that have occurred in the examination of each of these related applications as of the date indicated below. The undersigned also wishes to note that substantive Office Actions and Responses that have occurred in the examination of 6,903,754 have already been submitted in an IDS dated 9/29/05.

Copies of the listed non-patent literature documents are being submitted concurrently with this IDS. Applicant respectfully requests that the Examiner consider all of the listed documents and indicate that they were considered by making the appropriate notations on the attached forms.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that the listed documents are material or constitute "prior art." If the Examiner applies any of the documents cited in the accompanying IDS as prior art against any one of the claims in the application and Applicant determines that the cited document does not constitute "prior art" under United States law, Applicant reserves the right to present to the office the relevant facts and law regarding the appropriate status of such document.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

Respectfully submitted,

/Judith C. Bares/
